SOUTH CAROLINA STATISTICAL ABSTRACT

1981

SOUTH CAROLINA BUDGET AND CONTROL BOARD

GOVERNOR RICHARD W. RILEY
CHAIRMAN

GRADY L. PATTERSON, JR., State Treasurer

EARLE E. MORRIS, JR., Comptroller General

REMBERT C. DENNIS, CHAIRMAN, Senate Finance Committee

THOMAS G. MANGUM, CHAIRMAN, House Ways and Means Committee

WILLIAM T. PUTNAM, Executive Director

A Publication of

THE SOUTH CAROLINA DIVISION OF RESEARCH

AND

STATISTICAL SERVICES

EUGENE A. LAURENT, PH.D., Director

Preface

The purposes of the South Carolina Statistical Abstract are to present in one volume a diversity of information on South Carolina, its people, economy, and government. The Abstract assembles in one reference document a wide range of statistical data generated primarily by state and federal governmental agencies specific to South Carolina. The information has been assembled into 19 major sections: Agriculture and Seafood Production; Area, Geography and Climate; Banking, Finance, and Insurance; Capital Investment and Industry; Education; Employment; Energy Resources; Government and Politics; Health; Housing; Income and Selected Economic Indicators; Law Enforcement, Courts, Crime and Corrections; Natural Resources; Population; Public Welfare; Recreation and Tourism; Revenues and Expenditures; Transportation; and Vital Statistics. The sections have been selected for inclusion based on their demand and utilization by a broad range of users. A section entitled State Rankings has been included to facilitate comparisons among the fifty states for selected series.

It is impossible to compile and publish the South Carolina Statistical Abstract without the continued cooperation of the contributing agencies. The research staffs, both professional and clerical, have supported this publication. We would like to thank all of them.

To assist us in producing improved editions in the future, please complete and return the user-comments form.

USER COMMENTS

Your comments will be helpful in planning and publishing future editions of the South Carolina Statistical Abstract.

Section	Less Emphasis Needed	More Emphasis Needed

STATE RANKINGS

DEFINITION OF TERMS AND SOURCE OF DATA

POPULATION	The population counts presented refer to persons living in the United States and do not include Americans living overseas, in Puerto Rico, or in the outlying areas of Guam, Virgin Islands, American Samoa, or the Trust Territory or the Pacific Islands. Source: U.S. Department of Commerce, Bureau of the Census, Advance Reports, United States Summary - Final Population and Housing Unit Counts. PHC 80-V-1.
AREA	Total land and water area. Source: U.S. Department of Commerce, Bureau of the Census, Geography Division.
LIVE BIRTHS RATE	Number of births by place of occurrence per 1,000 population. Source: U.S. Department of Health, and Human Services, National Center for Health Statistics, Monthly Vital Statistics Report, Vol. 28, No. 13, November 1980.
ACTIVE PHYSICIANS	Number of active physicians per 100,000 resident population. Source U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1980.
MAJOR CRIMES	Murder, non-negligent manslaughter, forcible rape, robbery, aggravated assault, burglary, larceny ($50 or more), and auto theft. Source: U.S. Department of Justice, Federal Bureau of Investigation, Crime in the United States, 1980.
UNEMPLOYMENT RATE	The number of unemployed persons as a percent of the civilian labor force. Source: U.S. Department of Labor, Bureau of Labor Statistics, "Employment and Earnings, May 1981.
AVERAGE WEEKLY EARNINGS	Average weekly earnings of production workers on manufacturing payrolls. Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May 1981.
MANUFACTURING EMPLOYMENT	Persons employed in durable or nondurable manufacturing. Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May, 1981.
TOTAL NONAGRICULTURAL EMPLOYMENT	Full and part-time wage and salary workers who are employed during the week that includes the 12th of the month. (Not included are armed forces personnel, unpaid family workers, proprietors, self-employed, and workers in private households). Source: U.S. Department of Labor, Bureau of Labor Statistics, Employment and Earnings, May 1981.
TOTAL PERSONAL INCOME	Income figures reflect private and government wage and salary payments in cash and in kind, other labor income, farm and non-farm proprietors income, interest, net rental, dividends, and transfer payments, less contributions for social insurance. Source: U.S. Department of Commerce, Bureau of Economic Analysis, Regional Economics Information System, September 1981.
PER CAPITA PERSONAL INCOME	Personal Income of all persons divided by the total population showing the estimated personal income for each resident. Source: U.S. Department of Commerce, Bureau of Economic Analysis, Regional Economics Information System, September 1981.
PER CAPITA GENERAL EXPENDITURES OF STATE GOVERNMENTS FOR ALL FUNCTIONS	All state expenditures other than the specifically enumerated kinds of expenditures classified as Liquor Stores Expenditures and Insurance Trust Expenditures. Source: U.S. Department of Commerce, Bureau of the Census, State Government Finances in 1980.
FEDERAL AID PER CAPITA	All federal aid received by state and local governments. Per capita for U.S. only; excludes funds paid to, and population residing in, Puerto Rico, Virgin Islands, and "Other Areas." Based on Bureau of the Census estimated resident population as of July 1, including Armed Forces stationed in area. Source: U.S. Department of Commerce, Bureau of the Census, Statistical Abstract of the United States, 1980.

AGRICULTURE AND SEAFOOD PRODUCTION

Glossary

Farm - A farm consists of a place of 10 or more acres from which sales of farm products amounted to $50 or more in the preceding calendar year, or a place of less than 10 acres from which sales of farm products amounted to $250 or more in the preceding year.

Cropland - Land used for all row crops, close-grown field crops, rotation hay and pasture, hayland, conservation use only (excluding forest land), temporarily idle, orchards, vineyards, bush fruit, and open land formerly cropped.

Federal Land - Federally owned land, except that federally owned cropland operated under lease or permit is excluded.

Gross farm income includes four principal components - Cash receipts from farm marketings of farm products represent gross receipts from commercial market sales as well as loans (net of redemption) made or guaranteed by the Commodity Credit Corporation and other purchases under price support programs. Government payments to farmers are those made directly to farmers in connection with farm programs. Nonmoney income includes the value of farm productions consumed directly in farm households and the rental value of housing provided by farm dwellings. Expenses associated with these products and the dwellings are included in the production expense estimates thus, the nonmoney imputations do not add on a dollar-for-dollar basis to the net. Other farm income is cash income from sources such as recreation, machine hire, and custom work.

Farm production expenses are costs incurred in farm production. They include current farm operating expenses for such items as wages paid to hired labor (in cash and in kind), outlays for repairs of equipment and operation of the farm, as well as purchases of oil, feed, seed, and livestock. Overhead-type costs include charges for depreciation and other capital consumption, taxes on farm property, and interest on the farm mortgage debt.

Farm operators' net income before inventory adjustment represents what is left gross farm income after deducting farm production expenses.

Per capita personal income of the farm population is derived by dividing the appropriate totals by the number of people living on farms.

Farm Income - Cash income is the cash receipts from farm marketings and Government payments made directly to farms for farm related activities. Farm marketings represent agricultural products sold by farmers multiplied by prices received per unit of production at the local market. Gross farm income includes cash income, value of farm products consumed in farm homes, rental value of farm homes, and other farm-related income.

BANKING, FINANCE, AND INSURANCE

Glossary

Banking System - Banks in this country are organized under the laws of both the States and the Federal Government. State-chartered banks are supervised by officials of the respective States. "National" banks are supervised by the Comptroller of the Currency.

The Federal Reserve System - was established in 1913 to exercise central banking functions, some of which are shared with the U.S. Treasury. It includes national banks and such State banks as voluntarily join the System.

Savings and loan associations which unlike banks, are not engaged in deposit banking, are primarily involved in credit extension in the form of loans.

Insurance - Insurance companies are classified as either life or property.

CAPITAL INVESTMENT, AND INDUSTRY

Glossary

Number of Establishments - is the total number of locations at which each company has plants, counting each distinctly different line of activity at each location separately, insofar as company records permit.

Firm - a business unit in manufacturing, mining or electric, gas, and sanitary services. If a company has several plant locations in the state or county, then each location is considered a firm. Employment in a firm may range from zero for the self-employed to several thousand workers.

Total Capital Invested - Actual investment in the firm since the start of construction or operations, less depreciation. This covers plant, real estate, machinery and equipment, furniture and fixtures, delivery equipment, and any rent paid for buildings, machinery, etc.

New Capital Invested - Investment, less depreciation, in the firm for the fiscal year surveyed only. New Capital invested will be included in Total Capital invested.

Production Employees - Includes working foremen, and all non supervisory workers (including leadmen and trainees) engaged in fabrication, processing, assembling, inspecting, receiving, storage handling, packing, janitorial, watchman services, warehouse shipping, trucking and recordkeeping and other services closely associated with the above production operations.

Value of Products Manufactured - Dollar value of all manufactured or processed products produced during the fiscal year surveyed. This value is determined by totaling the number of units made or processed and multiplying by the selling price per unit. Also defined as the gross sales of all such manufactured or processed products including value of products in warehouses or unsold.

EDUCATION

Glossary

ELEMENTARY AND SECONDARY EDUCATION

Average Daily Attendance (ADA) - Is the aggregate number of days in attendance for a given period divided by the number of days the school is in session during this period.

Average Daily Membership (ADM)- Is the aggregate number of days in membership for a given period divided by the number of days the school is in session during this period.

Final Enrollment - Enrollment at beginning of the school year plus new enrollments from a non-public school or another state. Withdrawals are not subtracted from the enrollment figures.

Schools - The National Center for Education Statistics (NCES) defines a "school" as "a division of the school system consisting of a group of pupils composed of one or more grade groups, organized as one unit with one or more teachers to give instruction of a defined type, and housed in a school plant, as is the case when the elementary programs are housed in the same school plant."

"Regular" schools are those which advance a person toward a diploma or degree. They include public and private nursery schools, kindergartens, graded schools, colleges, universities, and professional schools. "Public" schools are schools controlled and supported by local, State or Federal governmental agencies; "private" or "non-public" schools are those controlled and supported mainly by religious organizations or by private persons or organizations.

The Bureau of the Census defines "elementary" schools as including grades 1 through 8; "high" schools as including grades 9 through 12; and "colleges" as including junior or community colleges, regular 4-year colleges, and graduate or professional schools.

School Year - Except as otherwise indicated in the tables, data relating to enrollment and staff refer to the school year which includes 180 days for students and 185 for staff. Generally, the school year begins in August and ends the first week in June. Statistics concerning finances are for a 12-month period beginning July 1.

HIGHER EDUCATION

Bachelor's Degree - Requires successful completion of at least four but nor more than five years of academic work.

Doctor's Degree - Includes such degrees as Doctor of Education, Doctor of Juridical Science (S.J.D.), Doctor of Philosophy in any field.

First Professional Degree - Signifies the completion of the academic requirements for a selected profession, which is based on an educational program requiring at least two academic years of previous college work for entrance and which requires a total of at least six academic years of college work for completion. Examples of first professional degrees are the Doctor of Jurisprudence (J.D.) and Bachelor of Laws (LL.B.), Doctor of Dental Surgery (D.D.S.) and Doctor of Medicine (M.D.) degrees.

Master's Degree - Is customarily granted upon successful completion of one (sometimes two) academic years of work beyond the bachelor's degree.

Full-Time Equivalency (FTE) for Public School Staff - Is the amount of employed time required in a less than full-time position expressed in proportion to that required in a full-time position with "1" representing one full-time position. The total FTE is derived by dividing the amount of employed time required in the less than full-time position by the amount of employed time required in a corresponding full-time position.

Technical Education - Programs designed to prepare individuals for employment. Completion of a two-year curriculum leads to an associate in Applied Science degree.

Unduplicated Headcount - The number of students enrolled in each listed program. A student is counted in only one curriculum. The extension totals are also unduplicated headcount. Although a student in extension may be counted in each program, he is counted only once in the total.

Vocational Education - One-year programs designed to prepare an individual for employment in a specific occupation; normal completion time requirement is four quarters.

a Williamsburg Manpower Center, South Carolina Department of Youth Services, and South Carolina School for the Deaf and the Blind.

b A substantial portion of this enrollment decrease is due to improved methods of nonduplication of enrollments within program areas.

1980-81	162,760	3,793	166,553

1): Includes Manpower Programs, S.C. Fire Academy, and Special Schools.
* : This apparent decrease in enrollments was due to a change in the method used to count enrollments for funding purpose. Since some part-time students enrolled in courses not related to a specific major, each course for which they enrolled, prior to July 1, 1973, counted as one enrollment. With the development of new computer programs and systems techniques, any student now enrolled in several courses or during two or more terms of an academic year is counted as one enrollment for that year.

EMPLOYMENT

Glossary

Labor Force - All people classified as employed or unemployed during the week that includes the 12th of the month.

Civilian Labor Force - All civilians who are classified employed or unemployed during the week that includes the 12th of the month. (excludes military personnel)

Employed Persons - All civilians who worked at least one hour for pay or profit or worked 15 hours or more, unpaid, in a family enterprise. Persons away from their employment for illness, bad weather, vacation or labor disputes during this week are counted as employed.

Nonagricultural Employment - Full and part-time wage and salary workers who are employed during the week that includes the 12th of the month. Not included are armed forces personnel, unpaid family workers, proprietors, self-employed, and workers in private households.

Insured Employment - Persons employed by firms covered by the S.C. Employment Security Law. This is approximately 75% of nonagricultural employment and includes nonprofit organizations employing four or more people and State educational and hospital institutions.

Unemployment - All civilians who are not employed during the week including the 12th of the month who made specific efforts to find a job within the previous four weeks and who were available for work during the week that includes the 12th of the month.

Wholesale Trade - Wholesale trade has now been divided into two major groups: (1) durable goods and (2) nondurable goods. The types of wholesale trade are: merchant wholesalers; manufacturers' sales branches and sales offices - establishments, separated from plants or mines maintained by manufacturing, refining and mining companies for marketing their products wholesale; merchandise agents and brokers - establishments whose operators are in business for themselves and are primarily engaged in selling or buying goods for others.

Retail Trade - Retail trade covers places selling directly to personal and household users, but not industrial users.

Unemployment Rates - Total number of unemployed people as a percent of the civilian labor force.

1/: These data are projected form the Current Population Survey (CPS) benchmark and have been adjusted for commuting and dual job holding. Consequently, these data represent persons by place of residence and are not strictly comparable to the establishment-based nonfarm wage and salary industry employment series. This series replaces all previous labor force series.
2/: Includes workers involved in labor management disputes; also includes agricultural workers and nonagricultural self-employed, unpaid family, and domestic workers.
3/: Preliminary 1980 data.
4/: New SMSA is a result of 1980 Census.
Note: Sum of items may not add to totals due to rounding.

1/: These data are projected from the Current Population Survey (CPS) benchmark and have been adjusted for commuting and dual job holding. Consequently, these data represent persons by place of residence and are not strictly comparable to the establishment based nonfarm and salary industry employment series. This series replaces all previous labor force series.

2/: Includes workers involved in labor management disputes; total employment also includes agricultural workers and nonagricultural self-employed, unpaid families, and domestic workers.

Note: Counties may not add to state total due to rounding.

ENERGY RESOURCES

Glossary

Energy:

British Thermal Unit (BTU) - The quantity of heat necessary to raise the temperature of one pound of water one degree Fahrenheit.

Public Utilities:

Kilowatt Hour (KWH) - The amount of electrical energy involved with a one thousand watt demand over a period of one hour.

Natural Gas - A gaseous combustible mixture of several hydrocarbons (including methane, ethane, propane, and butane) and minute amounts of other compounds.

Privately Owned Electric Utilities operating in S. C. in 1979 - Carolina Power and Light Co; Clinton Mills; Duke Power Co; Heath Springs Light and Power Co; Lockhart Power Co; S. C. Electric and Gas Co.

HOUSING

Glossary

Group Quarters. All persons not living in households are classified by the Bureau of the Census as living in group quarters. Persons in group quarters include persons under care or custody in institutions and persons in noninstitutional group quarters such as college dormitories, military barracks, monasteries, missions, and workers' dormitories. In addition, noninstitutional group quarters include any living quarters which is occupied by nine or more persons unrelated to the resident who owns or rents (maintains) the living quarters (for example, a large rooming or boarding house, or a large commune).

Household. A household includes all persons who occupy a group of rooms or a single room which constitutes a housing unit. A group of rooms or a single room is regarded as a housing unit when it is occupied as separate living quarters, that is, when the occupants live and eat separately from other persons in the building and have direct access from the outside of the building or through a common hall. The measure "persons per household" is obtained by dividing the number of persons in households by the number of households.

Housing Units. A housing unit is a house, an apartment, group of rooms, or a single room, occupied as separate living quarters, or if vacant, intended for occupancy. Separate living quarters are those in which the occupants live and eat separately from other persons in the building and have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated persons who share living arrangements. Both occupied and vacant housing units are included in the housing inventory, except that tents, caves, boats, vans, and the like are included only if they are occupied. Vacant mobile homes are included, provided they are intended for occupancy on the site where they stand. Vacant mobile homes on dealers' sales lots, at the factory, or in storage yards are excluded from the housing inventory.

Year-round housing units. All occupied units plus vacant units which are intended for year-round use. Data on housing characteristics are limited to year-round units. Vacant units held for seasonal use or migratory labor are excluded because it is difficult to obtain reliable information for them. Counts of the total housing inventory include such units.

Living Quarters. All structures occupied or intended for occupancy as living quarters are classified as housing units or group quarters. Group quarters are not included in the housing inventory; no housing information is collected about them.

Plumbing facilities. Presence of toilet facilities, bathing facilities, and piped water, ascertained for occupied and vacant housing units.

> Complete plumbing for exclusive use. Piped hot and cold water, a flush toilet, and bathtub or shower for exclusive use by household members. All facilities must be in the living quarters, but need not be in the same room. Hot water need not be available continuously. A privy or chemical toilet is not counted as a flush toilet. A bathtub or shower is counted only if it is connected to piped running water.

INCOME AND SELECTED ECONOMIC INDICATORS

GLOSSARY

Personal Income - Personal income is the current income received by persons from all sources net of contributions for social insurance. Not only individuals (including owners of unincorporated enterprises), but non-profit institutions, private trust funds, and private health and welfare funds are classed as "persons." Personal income includes transfers (payments not resulting from current production) from government and business such as social security benefits, military pensions, etc., but excludes transfers among persons. Although most of the income is in monetary form, there are important nonmonetary inclusions - chiefly, estimated net rental value to owner-occupants of their homes, the value of services furnished without payment by financial intermediaries, and the value of food consumed on farms.

Disposable Personal Income - is measured as personal income less personal tax ane nontax payments. Personal taxes include individual income taxes (net of refunds), estate and gift taxes, and personal property taxes. (As noted, personal contributions for social security, government retirement, and other social insurance programs are deducted in deriving total personal income.) Nontaxes include passport fees. fines and penalties, donations, and tuitions and fees paid to schools and hospitals operated mainly by government. Nontaxes generally exclude purchases by persons from government of goods and services that are similar to goods and services purchased by persons from business.

Per Capita Personal Income - Personal income divided by population showing the estimated personal income for each resident.

Poverty - Unless otherwise specified, poverty statistics represent measures of money income and are based on a "poverty index" first developed by the Social Security Administration (SSA) in 1964 and subsequently modified by a Federal Interagency Committee in 1969. At the core of this index is a nutritionally adequate food plan ("economy" plan) designed by the Department of Agriculture for "emergency or temporary use when funds are low." This index provides a range of income cutoffs or "poverty income thresholds" adjusted by such factors as family size, sex and age of the family head, number of children under age 18, and farm-nonfarm residence.

There are three sources of income:

1. Government - income from governmental wages, salaries, pensions and unemployment benefits.
2. Farm - income of proprietors, tenants and employees from operation of privately owned farms.
3. Private nonfarm - all personal income other than government and farm.

Glossary

Aggravated Assault - An unlawful attack by one person upon another for the purpose of inflicting severe bodily injury.

Burglary - The unlawful entry of a structure to commit a felony or theft, even though no force was used to gain entry.

Robbery - Occurs in the presence of the victim to obtain property or a thing of value from a person by use of force or threat of force.

Commutation - Reduction in the severity of a sentence (usually reduction in the length of a prison term); reserved to the Governor by the State Constitution.

Conditional Release - Parole for a Committed Youthful Offender, that is, a person under 21 years of age sentenced by a trial judge under the Youthful Offender law.

Juvenile - For purposes of juvenile jurisdiction of the district courts, a juvenile or "child" is defined as being, with two exceptions, one who has not reached his or her eighteenth birthday and "is not married, emancipated, or a member of the armed services of the United States". The exceptions are where a person has committed, or is alleged to have committed, a criminal offense, including violations of the motor vehicle laws; or has violated the conditions of probation previously ordered in a court proceeding. For these latter situations, the statutes provide that a juvenile or child is one who has not reached his or her sixteenth birthday.

Pardon - Remittance of the remainder of a sentence; reserved to the Governor by the State Constitution.

Parole - Release from prison before completion of sentence by the Parole Commission; subject to specified conditions, usually including supervision by an appointed authority subject to revocation and imprisonment if the conditions are breached.

Probation - Suspension of an active prison sentence by a trial judge; subject to specified conditions, usually including supervision by an appointed authority; subject to revocation and imprisonment if the conditions are breached.

Reprieve - Delay in the execution of a sentence; can be granted by a court or the Governor.

TOTAL NUMBER OF OFFENSES[3]	4,487	4,892	276	263	9,783	-	-
TOTAL NUMBER OF OFFENDERS[3]	2,428	2,802	136	145	5,511	-	-

1: Ranking is in descending order according to offense; the offense category with the largest total number is ranked number one.
2: All offenses committed by an inmate are counted; therefore, because of multiple offenses for some inmates, the total number of offenses exceeds the total number of inmates.
*: Percentage is less than 0.1%.

Glossary

Forestry

Forest land.--Land at least 16.7 percent stocked by forest of any size, or formerly having had such tree cover, and not currently developed for nonforest use.

National Forest land.--Federal lands which have been legally designated as National Forests or purchase units, and other lands under the administration of the Forest Service, including experimental areas and Bankhead-Jones Title III lands.

Unproductive forest land.--Forest land incapable of producing 20 cubic feet per acre of industrial wood under natural conditions, because of adverse site conditions.

Productive-reserved forest land.--Forest land sufficiently productive to qualify as commercial forest land, but withdrawn from timber utilization through statute or administrative designation.

Commercial forest land.--Forest land producing or capable of producing crops of industrial wood and not withdrawn from timber utilization.

Nonforest land.--Land that has never supported forests and lands formerly forested where timber management is precluded by development for other uses.

Natural Resources

Natural Resources.--This function includes activities primarily concerned with the conservation and development of natural resources--forest fire prevention and control, flood control, irrigation, drainage, land and forest reclamation, fish and game preservation and control, soil conservation, forestry, agricultural aids and research, agricultural development and inspection, and mineral resources activities.

Mineral Resources

The mineral industries include establishments primarily engaged in metal mining, anthracite mining, bituminous coal and lignite mining, oil and gas extraction, mining services and mining and milling or otherwise preparing nonmetallic minerals, except fuels.

MINERAL PRODUCTION IN SOUTH CAROLINA

MINERALS	1979	1980
Clays	$ 24,297,000	$ 25,169,000
Sand and Gravel	21,500,000	22,855,000
Stone:		
Crushed	46,209,000	49,207,000
Dimension	554,000	703,000
Fuller's earth, peat, gem stones, vermiculite, manganiferous ore (for brick manufacture), mica (scrap)	8,705,000	9,606,000
Total	$105,048,000	$107,540,000

Note: The value of mineral production in South Carolina in 1980 increased about 2.4% to an estimated $107 million. Commodities contributing to the bulk of the value include crushed stone, clays, limestone (for cement), sand and gravel.

Note: South Carolina's production ranked nationally second in kaolin and vermiculite, third in mica (scrap), seventh in common clay and eighth in Fuller's earth.

Glossary

Race. Information on race was obtained through self-identification; therefore, the data represent self-classification by people according to the race with which they identify themselves.

The category "White" includes persons who indicated their race as White, as well as persons who did not classify themselves in one of the specific race cetegories listed on the questionnaire but entered a response suggesting European origin such as German, Italian, or Polish.

The category "Black" includes persons who indicated their race as Black or Negro, as well as persons who did not classify themselves in one of the specific race categories listed on the questionnaire but reported entries such as Jamaican, Black Puerto Rican, West Indian, Haitian, or Nigerian.

The category "American Indian, Eskimo, and Aleut" includes persons who classified themselves as such in one of the specific race categories.

The category "Asian and Pacific Islander" includes persons who indicated their race as Japanese, Chinese, Filipino, Korean, Asian, Indian, Vietnamese, Hawaiian, Guamanian, or Samoan.

The category "Other" includes Asian and Pacific Islander groups not identified separately (e.g., Cambodian, Indochinese, Pakistani, Indonesian, Fiji Islander) and other races not included in the specific categories listed on the questionnaire.

Spanish Origin. Persons of Spanish origin or descent are those who classified themselves in one of the specific Spanish origin categories listed on the questionnaire--Mexican, Puerto Rican, or Cuban--as well as those who indicated that they were of other Spanish/Hispanic origin. Persons of Spanish origin may be of any race.

Urban-rural residence. The determination of urban-rural residence is made after census results have been tabulated. Geographic areas are classified as urban or rural on the basis of their population size and/or density at the time of the census.

Urban population. All persons residing in areas determined to be urbanized areas or in places of 2,500 or more outside urbanized areas.

Rural population. Population not classification as urban constitutes the rural population.

Urbanized Areas. These areas are defined by population density and are composed of an incorporated place and surrounding densely settled areas that together have a combined population of at least 50,000. There is no minimum size for the incorporated place that forms the central city of the area. The boundaries of Urbanized Areas do not generally conform to county boundaries.

Census Designated Place. It is a densely settled population center which is not incorporated as a city, village, town, etc., but which resembles a municipality in that it can be identified with a name by most people. Each census designated place has a definite nucleus of residences.

SMSA-Standard metropolitan statistical area.
Under the 1980 standards, an area qualifies for recognition as an SMSA in one of two ways: If there is a city of 50,000 population, or an urbanized area of 50,000 with a total metropolitan population of at least 100,000.

PUBLIC WELFARE

Glossary

AFDC (Aid to Families with Dependent Children) - Financial assistance available to families with children who are deprived of parental care or support due to the absence or incapacity of one or both parents. Payments are based on the differences between income available to the family and the total allowance established under the Consolidated Standard of Need for food, clothing, shelter, utilities, household furnishing, equipment and supplies, personal expenses, medicine (other than prescription drugs), certain school fees, and transportation costs for the members in the budget unit.

Food Stamp Program - A federal, state and local program designed to provide individuals meeting certain income eligibility standards set by the federal government with coupons for food through purchase or as a reduction from their assistance payment. The purchase price of the coupons is less than the dollar value of the goods they can purchase.

Medicare - A federal hospital and medical insurance protection plan enacted in 1965 under the Social Security program. The program was designed to cover persons 65 and over and has been expanded to include persons under 65 who have been entitled to disability checks for 2 ore more consecutive years and persons with permanent kidney failure who need dialysis or kidney transplants.

Public Assistance - Aid provided to the needy, aged, blind, disabled and families of dependent children under federal and state programs.

Vocational Rehabilitation Services - A state and federal program designed to help those with mental or physical disabilities and those with handicaps to become more employable and get jobs. Services include eligibility determination, designing vocational rehabilitation programs, placing clients in jobs and following up programs after employment.

Social Security - A U.S. government program designed to provide continuing income when the individual or family earnings are reduced or stopped because of retirement, disability or death. The program was established in 1935 covering only the worker at retirement but has been gradually extended to include provisions for old age and survivors insurance, contributions to state unemployment insurance, and old age assistance.

Glossary

Traveler - The broad term traveler or tourist includes persons going outside their daily commuting zones. State residents traveling on trips away from home are included in the total, along with out-of-state visitors. The estimates include persons traveling for business, pleasure, and personal affairs. Also included are travelers passing through en route to destinations beyond, and parties making short trips, such as weekend or holiday visits. One-day as well as overnight trips are included. Regular commuters are not included.

REVENUES

General Fund - The State's largest primary revenue-generating fund group. It represents a composite of revenue sources derived from taxation, licenses, fees and all institutional and departmental revenues or collections including income from the sale of commodities and services or other activities which provide funds for the fiscal operation of State government.

The various revenues making up the General Fund are categorized into three source descriptions for accounting purposes in the fiscal State Budget: Regular Sources, Miscellaneous Sources and Federal Revenue Sharing Funds.

Regular Sources: Revenues which are established basis of income from year to year. These include the Sales and Use Tax, the Income Taxes, (individual and corporation) and an All Other segment comprised of twenty-eight additional tax, interest, assessment and/or license accounts.

Miscellaneous Sources: Revenue that is not as predictable as collections from Regular Sources. Generally, this classification incorporates: (1) those receipts which do not always recur in succeeding years, often labelled "windfall revenues" (2) first-year collections of newly enacted taxes and (3) line-item transfers of agency appropriations to the General Fund for specific purposes.

Revenue Sharing: Funds pursuant to the provisions of the State and Local Fiscal Assistance Act of 1972, as amended (Revenue Sharing Act). These include general Revenue Sharing Funds, Anti-Recession Aid Funds, and interest received from investment of said accounts during the current fiscal year. "Windfall Revenue Sharing Funds" based on allotments and interest received by the State for the funding period of January 1, 1972 through June 30, 1973 were maintained in a separate account and reported as a special entry on the financial statements apart from the General Fund prior to Fiscal year 1977-1978. Prior years have been adjusted to incorporate this fund.

Aid to Subdivisions - Distribution of State aid to counties and municipalities. Except for a reimbursement to counties for a homestead exemption (property tax), funds are allocated on a percentage basis from total collections of designated State taxes. The distribution formula is prescribed by statute and is subject to change. Types of funds: (1) Unrestricted - where such monies may be used for the general operations of the county, city, or town; (2) Restricted - where the expenditure of such monies is designated by the law or the regulation to a particular project or program.

EXPENDITURES

South Carolina (General Fund)- The State expenditure data is limited to General Fund operations only and will differ from the consolidated expenditure statements outlined in other S. C. financial agency reports. Expenditures are classified by functional groups. The following appropriations are excluded: (1) Capital Outlay and Non-Recurring — funds utilized for capital improvements and other special projects i.e., new construction, expansion and /or renovation of the physical plant. (2) All Federal appropriations except "recurring" Revenue Sharing appropriations (See R. Sharing description of this section for applicable R. Sharing fund (3) Highway Fund - expenditures for the operation of the S. C. Department of Highways and Public Transportation.

Government Units - A government is an organized entity whose governmental character is evidenced by popular election of the officials or their appointment by public officials, a high degree of public accountability, and the power to raise revenue to provide authorized services. In addition, a governmental unit must have sufficient discretion in the management of its own affairs to distinguish it from the administrative structure of any other governmental unit.

State Government - This category refers to the governments of the 50 states which constitute the United States.

Local Governments - The Bureau of the Census classifies local governments by five major types—county, municipality, township, school district and special district.

VITAL STATISTICS

Glossary

Live Births - The complete expulsion or extraction from its mother of a product of human conception irrespective of the duration of pregnancy, as indicated by the fact that after such expulsion or extraction the fetus does not breathe or show any evidence of life, such as beating of the heart, pulsation of the umbilical cord, or definite movement of voluntary muscles.

Death - The permanent disappearance of any evidence of life at any time after live birth.

Infant Death - Death of a live born infant under one year of age.

Residence Allocation - Vital events in these tables are allocated to the place of residence (county) regardless of the place of occurrence. In the case of a birth, residence is the usual residence of the mother. Deaths are allocated to the residence of the deceased.

SOURCE APPENDIX

Guide to Sources of Statistics

The South Carolina Statistical Abstract is an abstract. It presents as much statistical information as possible in tabular form, but it is also a guidebook to the sources from which the statistics have been taken. In almost every instance more detail exists in the source than can be included in the abstract, and sometimes the issuing agency has additional data or perhaps more recent information by the time the abstract reaches the user.

For the convenience of the reader who requires additonal and more specialized information this section contains the names, telephone numbers, and addresses of contributors to the 1981 S. C. Statistical Abstract.
